Women's Architectural League to Sponsor Tours Through Peninsula, Marin Homes

Ranging from the palatial country estates to the small, easy-to-live-in hillside cottages, the skill of the local architects is being demonstrated in a "Home in the Country" tour sponsored by the Women's Architectural League.

Tour of Marin County homes will take place Thursday, Mar. 11. Homes open from 1 p.m. to 4 p.m. will be those of Mr. and Mrs. Mario Corbett in Sausalito, Mr. and Mrs. John S. Bolles of Ross, Mr. and Mrs. Robert E. Burns and Dr. and Mrs. Harold Fletcher of Kentfield.

On the following Thursday, Mar. 18, Peninsula homes on display include those of Mr. and Mrs. Martin Dinkelspiel of Hillsborough, and the guest house and swimming pool of Mr. and Mrs. Henry MacIntyre. There will be three homes open on the "deep Peninsula," those of Mr. and Mrs. Howard K. White of Atherton, Mr. and Mrs. Ralph K. Davies of Woodside, and Mr. and Mrs. William Corbus of Menlo Park.

The homes have all been completed (some within the past six months) and are occupied by the owners. Each represents a solution to an individual problem, but all have in common the freedom of outdoor living combined with the charm and convenience of well planned interiors. The contrasting results should prove both interesting and provocative to those taking the tour.

Tickets are limited and those wishing to attend the tour are urged not to wait too long to purchase their tickets. Tickets are good for both days of the tour and are available from Mrs. Francis A. Constable of Menlo Park, phone Palo Alto 2-1123, and from Mrs. Rudolph Igaz Jr., 1441 Carleton Rd., Hillsborough, Burlingame 4-3098.

Jitterbugging Ends in Kayo, Woman Says

Because she jitterbugged shoeless with a single man, her husband beat her and knocked her cold, Mrs. Doris Miles charged Tuesday.

The 25-year-old Colma woman swore out a complaint charging her husband, Kenneth, 23, with battery.

Mrs. Miles, who used to teach dancing for four years, said that her husband does not dance.

The couple went to a party Saturday night, leaving their children with a baby sitter. After dinner, Mrs. Miles danced with some of the men, while her husband played the part of a wallflower.

It was her final dance, with a single man, that really touched the quarrel off, she declared.

When they got home early yesterday morning, the quarrel burst into the open. Neighbors called police, who found Mrs. Miles unconscious.

She was treated at Junipero Serra Hospital, her two children, Ronnie, 5 months, and Darrell, 5 years, taken to Community hospital and Miles was taken to the county jail.

She took the children back Monday night and appeared Tuesday morning with swollen face and blackened eye, to sign the complaint before Justice of the Peace Edward I. McAuliffe.

Miles' bail was set at $50.

Local Artist's Work on Exhibit In City Library

Local residents who have entered the Adult Reading Room of the Redwood City Library this week undoubtedly will have noticed the seven oil paintings hanging there.

The paintings were done by William Mitchell who makes art his hobby and engineering his profession.

Mr. Mitchell is employed in the city engineer's office and resides in Menlo Park.

His pictures are part of a series he is currently working on, depicting missions.

Two of his paintings are studies of the famous Morgan's Tower in Panama, a mission which the Pirate Henry Morgan ransacked in the 17th century in an effort to find the priceless altar appointments which the natives had hidden.

One of the paintings in the library is not an amateur, even though he claims that art is just a hobby. He has had six years of art training in the East and has done post graduate work in Chicago, Denver University and at San Diego State College, and during the war he did cartooning while in the army.

Following the completion of his series on missions, he has been commissioned to do a series of 17 paintings depicting incidents in the life of the famous Emperor Norton, the man who believed he was ruler of California.

Milk Prices Here Increase 1½ Cents

Milk prices in Redwood City and the rest of San Mateo County went up 1½ cents a quart Tuesday.

The new prices are 19½ cents in stores, 20½ cents delivered. Homogenized milk runs half a cent higher.

The increases were authorized by the State Department of Agriculture. The boosts were blamed on the rising cost of feeding cattle because of the drought.

This was the second boost in the price of milk in two months. On Jan. 17 the minimum price of milk sold to consumers in the San Mateo County marketing area was increased half a cent a quart. The boost today was the fourth time milk prices have been increased in recent years.

Producers and distributors at a hearing here early this year had argued that an increase in the price of milk was needed because of the higher cost of labor, materials and supplies.

Cost of Police Department For Ravenswood Dist. Aired

A police department for the Ravenswood School Dist. would have three or four officers working on eight-hour shifts and would cost the property owner $5 a year per $1000 assessed valuation.

This was the information Frank Reece, president of the Ravenswood-Willow Booster Club, gave members of the Palo Alto Manor Residents Assn. in a Sunday night at the Ravenswood School.

Reece explained that the maximum assessment for support of an unlimited type police district in the Ravenswood-Willow area would be one-half of one per cent of the $5,214,000 assessed valuation total, or $26,570.

He said that the Atherton Police Dept., which has a comparable area to cover, operates on an $18,000 annual budget.

Reece urged that one police district be formed for the entire area. He asserted, that it would not be practical to break up the area into several police districts.

"There has been opposition from some residents of North Palo Alto to an unlimited district," Reece explained. "These residents propose a district bounded by Menalto Ave., Woodland Ave., Middlefield Rd., Ringwood Ave. and the Bayshore Hwy. They intend to propose a limited district with a $3600 annual assessment.

"They believe that the state legislature will raise the $3600 ceiling on a limited district, but I think that will take time, and in the meantime we need a police district protection."

Reece told Palo Alto Manor residents that a police district is a necessity. "It's coming sooner or later," Reece predicted, "and the sooner it comes, the better."

In a discussion following Reece's talk, members of the association indicated they wished to wait until a general meeting is held before going on record as in favor or against formation of an unlimited type police district.

Residents Sunday took a test vote on the proposal that the Bayshore Freeway be rerouted around the East Palo Alto district and voted 16 to 3 in favor of the relocation. Five persons indicated they were undecided on the matter.

Arthur Cobbledick, landscape architect, also spoke at the meeting on the subject of improvement of small homesites. Cobbledick suggested that residents think in neighborly terms in landscaping small lots.

GARDEN: Water a Must For Maximum Seed Growth

BY ROLLY LANGLEY

If you're just medium careful when you plant seeds like carrots, you can get them to grow. So often seeds are planted casually, temporarily forgotten, and then blamed for being "hard to grow," or "bad seeds." Actually, the greenthumber is at fault because he forgets that the soil must be kept moist every minute of the time, once germination has started.

If seeds were as hard to get here as they have been inEurope, I imagine the percentage of successes in our gardens would skyrocket. It is best to have your soil moist as the seeds are planted, but since that top inch of the plot dries out so quickly, you should check every day, just to make sure. This will answer Mrs. H. E. S.'s question.

She tells of an experience with honeysuckle: "We all know that vines add to a home and yard, but they can be very dangerous. The former owner planted this honeysuckle vine several years ago over the septic tank and about two weeks ago we started having trouble with our tank and found that the vine had grown through the redwood lid and had taken over the tank. The result is our lovely brick patio is spoiled and our trellis and vine torn down. Now we have to replace the trellis and brick patio, plus over $100 for the work. It also meant 12 hours of work cleaning up the debris, hours that I should have spent in the yard.

"There also was an ivy vine growing on the chimney and it was separating the chimney from the house. We discovered this before any real damage was done. Keep your fingers crossed that I grow good vegetables. I truly hope my experience with vines will help someone." She's right — you have to watch vines. On shingles, too.

Mrs. Robert Agee's husband is in China and she's starting their first spring garden alone. For a beginner, she is making a noble effort: "A 30-inch wide garden of rose bushes separates our vegetable garden from our lawn and patio. The roses are Talisman, Showgirl, Crimson Glory, Pink Picture and Hoanna Hill. I hope to plant a border of pansies around this rose garden and to plant other flowers, such as glads, just in back and between the rose bushes. Across the back fence above the lawn, I have a very fine variety of sweetpeas and I plan to plant choice 'mums there also, for fall blooming.

"We planted an apricot tree in our lawn in January and it is doing beautifully, small as it is. I have one very important question. How can I slip a rubber plant and have any luck?"

There are two methods. One is to make cuttings now. These should have one eye each. Root them in moist sand. The other way is to cut a flowerpot in half and then reconstruct it around the branch you wish to propagate. Make a notch through the bark where the roots start. Fill the flowerpot after you've tied it up in place, with moist sphagnum moss, which must be kept damp until the roots develop. Then cut off the branch below the roots. This is called air-layering, and can be done with camellias as well.

Edward C. Anderson of Oakland wants to know a good contact for information on roses. I suggest anyone with similar interests contact Dr. Charles Covell, and join the Oakland Rose Study Club.

Theodora Selk wants to be nice and look at the world through rose-colored glasses. "Last year's crop of Pearl Harbor tomatoes was amazingly bountiful considering the lack of care caused by three small kids. The flavor wasn't too good, and they were rather small, but the skins were nice and tender."

Mrs. E. J. Tulsky writes that she has raised a garden for five years on a plot 20x20 ft., which she has found ample for a family of two, cheaper, and a convenience.

With close figuring, you can raise enough for two people on just 225 square feet — the year around. That's fresh vegetables, of course — no potatoes, no winter squash for storing.

Some of the 600 volunteers soliciting funds from Redwood City to the south county line started their solicitation Sunday. day.

Although the campaign will be on all during March, John Ball, general chairman, has asked solicitors make their calls as soon as possible.

Louis B. Dematteis, chairman of the Sequoia Chapter, said that 800 veterans and their dependents were assisted by the local chapter during 1947.

In the fields of health and safety, Dematteis said, the chapter issued 650 home nursing certificates, 26 first aid certificates, 175 nutrition certificates and 15 nutrition certificates.

Sequoia PTA Board Discusses Program for Unit Meeting

Sequoia Parent Teacher Assn. executive board met yesterday morning at the high school, with Mrs. Carles Bersinger, president, presiding.

Announcement of the monthly meeting of the organization was made and will take place in the library of the school, Tuesday, March 9, at 8 p.m. Directed by Miss Annie Bigler, head of Sequoia's Science Dept., the topic for the evening's discussion will be, "What is a good Science Curriculum?"

Professor Frank Gillete, superintendent of Student Science Teachers in the Stanford Education Department, will be the guest speaker.

A symposium "which will be unique and lively," according to Mrs. Andrew Reid, publicity chairman of the PTA, will be the feature of the evening.

The executive board went on record to appeal to the school board of trustees that, "through observation and the eyes of the pupils since a critically crowded condition exists at Sequoia we urge the school board to take immediate action to alleviate this congestion."

Mrs. Dorothy Roesnfeld, school nurse, asked the aid of the PTA in starting a dental clinic. A committee was appointed by the president to investigate the possibility of the venture with the dental association.

The drama department's April 3 production of "Guest Star," will be backed and sponsored by the PTA, according to Mrs. Reid. The board discussed plans for aiding the production at their meeting.

Mothers of the eighth-grade pupils in surrounding schools have been asked to come to Sequoia PTA meetings to begin to get acquainted with other parents.

Stanford Beer Bust Ends With Arrest

A sextet of Stanford University students, all war veterans, was starting to bail out of the county jail Monday afternoon after they were pinched Sunday night in the middle of a beer bust.

The six were charged with disturbing the peace and malicious mischief after they allegedly tore up four tables at Rossotti's picnic grounds on Portola Rd. for a bonfire.

The men, arested Sunday by Woodside Patrolmen Herb Elvander and William McGowan, are John Levy, 26; Allison Brooks, 24; Ronald Bishop, 26; John J. Thompson, 24; Paul W. Stremic, 27; and Victor Caglieri, 25.

Elvander said that the six took three casks of beer to Rossotti's about 4 p.m. Sunday. When Elvander arrived at 7 p.m., they had emptied one of the barrels and had made a substantial invasion of the second.

Fifty-four members and guests of the San Carlos Racquet Club enjoyed a dinner dance last Friday night at the Pioneer Inn in Woodside.

Emma Cowgill was in charge of the decorations which consisted of spring flowers and ivy. Variegated ivy on the speaker's table spelled out the name of the club.

Betty Yearing was in charge of the affair.

Members and guests attending were the Ed Amarks, E. Petersons, Tex Justuses, Sidney Cowgills, Ed Yearings, R. Schuylers, Arch Camerons and guests, Bill Dixons and guests, Betty Ann Thompkins and guests, Charles Freys and guests, Orville Carlocks, Ed Wilkeses, Templeton Voorhies and guests, Lou Aaronsons and guests, Jim Keefes, R. Gettys, Bill Fultons, Ronny Becks and N. Carnes.

Entertaining at cocktail parties before the dinner were the Ed Yearings, Jim Keefes and E. Petersons.

Seven Injured In Weekend Accidents

Seven persons were injured, none seriously, in motor vehicle accidents during the weekend, the California Highway Patrol reported.

Two of the accidents involved motorcycles.

Louis G. Fowler, 29, a staff sergeant who lives at Half Moon Bay, suffered minor injuries when the car he was driving was involved in a headon collision on Coast Hwy. in Moss Beach Sunday at 8:15 p.m. Also injured were Chris Tharaldsen, 44, and Agnes Tharaldsen, 37, of San Francisco.

The CHP stated that Fowler's car and a sedan driven by William O. Beyer, 61, a San Francisco carpenter, collided on a curve on Coast Hwy. Fowler's car overturned.

Phillip Pate, 21, of San Francisco, was treated at Mills Memorial Hospital for injuries sustained Sunday when the car in which he was a passenger was struck by a truck.

He was riding in a car driven by James A. Mohan Jr., 25, of San Francisco Officers said that the truck, driven by Homer L. Brownell, 32, of Watsonville, skidded and struck the rear of Mohan's sedan. The accident occurred on Bayshore Hwy. about a half mile north of Harbor Rd., Belmont.

Scott Woods, 23, of Oakland, and Marjorie Glass, 20, of Alameda, suffered minor bruises and sprains Sunday afternoon when the motorcycle driven by Woods skidded and spilled the couple.

Woods told the CHP that he swerved the cycle to avoid running into an automobile. The accident was on Bayshore Hwy. a tenth of a mile south of Harbor Rd.

Noel M. Gorman, 31, a San Francisco lumber foreman, suffered shoulder and knee injuries when the motorcycle he was driving Saturday evening skidded in loose gravel while making a U-turn on Coast Hwy. in Half Moon Bay. Gorman was treated at Community Hospital.

Bandit Raids SC Theater

The Carlos Theater in San Carlos was held up Saturday night, for the second time within three months, by a lone bandit who made off with $65.

San Carlos police said that the discription fitted that of the person who stuck up the Baywood Theater in San Mateo on Jan. 11, but was not the same as that of the man who robbed the Carlos Theater last December.

The robbery took place at 10 p.m. when the bandit walked up to the theater box office and handed Louise Andermahr, 19-year-old assistant manager, a paper napkin on which was scrawled a note ordering her to turn over all the money in the box office to him.

The bandit was discribed by Miss Andermahr as being about 6 feet tall, light complected, and having a medium build. He wore a long light overcoat and a dark blue hat.

Officers said they believed that the bandit had been inside the theater before he held up the box office because the note he had written was on paper similar to that used in the theater rest room.

Bullets Halt Soldiers In Bayshore Chase

Four soldiers from Fort Ord were in the county jail here Monday after a chase of from 90 to 100 miles an hour Sunday by California Highway Patrolmen and a near mobbing by a group of angry motorists.

The youthful soldiers were stopped only after two bullets fired by patrolmen struck the back of the car and a third bullet punctured a tire. Four bullets were fired during the chase.

Arrested on charges of resisting arrest, reckless driving, failure to stop for a police siren and driving a stolen car were Leonard J. Heninger, 18; Dale D. Osborne, 18; Daniel E. Garrity, 17, and Joseph F. Tallon, 17.

The chase started on Bayshore Hwy. near Tunnel Hill south of Brisbane after Patrolmen Walter Swope and James Wallace recognized the car as one reported stolen in Salinas.

The officers stopped the car, and as they got out of the CHP car to investigate, the stolen car, with Heninger driving, roared off.

During the chase motorists were forced by the zig-zagging car to pull to the curb and pedestrians ran for safety.

When the youths were finally halted by the patrolmen, motorists who had joined in the chase threatened to attack them, but the patrolmen stopped the would-be mobsters.

The stolen car belonged to Domenic Falletti, Susanville businessman.

FACTS ABOUT POWER CURTAILMENT

A STATEMENT BY P. G. AND E.

California, particularly in the central and southern areas served by the Company, is faced with a drought of unprecedented proportions. In the Bakersfield area, for example, rainfall this season has been less than 20 per cent of normal. Most of this season's scant precipitation in the watersheds of California came last fall and what remains in the mountains in the form of snow is only about half of what it was in 1931, the driest year of record.

The drought has had the double effect of drastically reducing the amount of water power available and at the same time creating a large and completely unprecedented irrigation pumping demand. It is estimated that this pumping demand exceeds normal by at least 250,000 horsepower. This is equivalent to the combined power demand of the cities of Sacramento, Stockton, Fresno, Merced, San Jose and Berkeley.

Power Saved Is Water Saved

In order to conserve water, we ran our steam electric generating plants at full capacity all last year. By doing this we were able to effect a carry-over of about 50 per cent of our storage capacity—well over the normal carry-over. Unseasonable pumping demands have made heavy inroads on that storage, and power curtailment has become necessary to prevent further depletion of stored water.

The City of San Francisco and other electric producing agencies face similarly severe drought problems. The City of San Francisco already has found it necessary to reduce its power output to conserve water.

War Delays Expansion

This winter's drought occurs at a time when the Company's power reserves are at a minimum. Wartime restrictions on construction, shortages of materials and the prolonged post-war strikes greatly delayed the delivery of new generating equipment.

When the war started, the Company had on order two large steam electric generators which were to commence operation in 1944. Work on these generators was stopped in 1941 for the duration of the war by order of the War Production Board. Promptly after wartime restrictions were ended the Company restored the orders for these war-delayed generators and followed this with orders for a number of additional hydro and steam electric plants.

New Generating Plants Due

We have just received the first steam electric generator reordered in 1945. This new 100,000-horsepower unit is now being installed in our Kern plant near Bakersfield. We expect to place it in operation in April. We will also add 125,000 horsepower in the new Electra and West Point plants on the Mokelumne River this year, and 300,000 additional horsepower at Station "P" in San Francisco. In all, 525,000 horsepower of new generating capacity will be installed in the next twelve months on the P. G. and E. System.

Delay experienced by the Bureau of Reclamation in installing the first two additional generators at Shasta Dam has further aggravated the situation. These units of 100,000 horsepower each were installed during the war at Grand Coulee Dam. In early 1946 they were moved to Shasta Dam. They were scheduled to commence operation in the summer of 1947 before any other new plants could be constructed in the area in the postwar period. This schedule was not met. The first of these generators is only now about ready for operation and the second is expected to be ready in three months.

Construction Program

The Company has had underway for over two years a huge construction program to bring 1,400,000 horsepower of new generating capacity to the area. We are doing everything possible to speed that program. In 1945, the last war year, we spent $22,526,000 on new construction. In 1946 we spent $45,000,000. In 1947 we spent over $100,000,000. At the present time our construction expenditures exceed 10 million dollars a month.

During the next 12 months alone our construction plus the additions at Shasta will aggregate more than 725,000 new horsepower.

Hope for Rain Diminishes

The power situation will remain critical until these additions are completed unless relief comes through a protracted period of heavy rainfall in the valleys and a deep snowpack in the mountains. Hope for such relief diminishes each day. The drought emergency and the public interest require the fullest cooperation with the power curtailment orders of the California Public Utilities Commission. Moderate curtailment now may well forestall more drastic curtailment later.

Power producing agencies are cooperating in a regional power pool to make the most of available resources. The public can be assured that we have done and will continue to do everything possible to meet the emergency and to keep curtailment at a minimum. The Company is appreciative of the cooperation it is receiving from the public.

Hatch, Cotton, Rowell First to Get Papers From County Clerk

Three candidates for county and national offices secured papers from County Clerk William H. Augustus today, the first day of a three-week filing period.

Superior Judge A. R. Cotton, who by law has made a declaration of intention to run, was one of the three. He will be unopposed at the June 1 election, since no other judicial candidate has filed his declaration.

Chmn. Alvin S. Hatch of the board of supervisors and Jonathan Rowell were the other two to secure papers this morning. Hatch is one of three members of the board who will stand for reelection.

The other two, Henry W. Edmonds of Redwood City and Thomas L. Hickey of South San Francisco, have declared that they will stand for election again.

Rowell Monday announced that he would run for Congress on the Democratic ticket with the support of labor groups.

On the state ticket, Assemblyman Richard J. Dolwig of South San Francisco and State Sen. Harry L. Parkman of Millbrae have announced their candidacies for reelection.

Rusell J. Patterson, registrar of voters, meanwhile predicted that about 100,000 persons would be registered for the June 1 primary election.

At present, 74,429 have registered, compared to the 82,949 who were eligible in the November, 1946, general election. He pointed out that there have been many cancellations, and late registration figures will bring the total above the 1946 mark.

The last day to register in order to be eligible to vote June 1 is Apr. 2, Patterson said.

The breakdown of the registration by parties, with the 1948 figure first and the comparative 1946 figure second, follows:

Democratic — 38,695; 43,022.
Republican — 32,674; 36,170.
Prohibition — 19; 18. Non-partisan — 3041; 3739.

The Independent Progressive Party of California, which is backing Henry A. Wallace for the presidency, also has qualified for the election. Its supporters are distributed among the nonpartisan and the two major parties, Patterson said.

Pair Asks $6590 For Blast Damage

Another suit resulting from blasting and dirt moving operations by contractors working on Mills Field was filed in superior court today.

Mr. and Mrs. Henry F. Hoffmeyer, 141 San Luis Ave., Lomita Park, seek $6590 for damage done to their home by blasting vibrations, and to their health by dust and noise.

The contractors named are Macco Construction Co. and the Morrison-Knudsen Co.

Greersburg Votes Bonds For School

A $60,000 bond issue for improvement of the Woodside School was approved Tuesday by voters in the Greersburg School Dist., 176-13, more than double the 5-1 margin the same bond issue was passed by last October.

The revote had been called on the earlier election because a provision in the ballot providing for some of the funds to be used to pay off previous bonded indebtedness had resulted in the election being declared invalid.

A relatively heavy vote, 38 per cent of the school district's approximately 500 registered voters, turned out to the polls yesterday. The bonds passed by a slightly more than 13-1 majority.

Money raised through the bond issue will be used to purchase additional land at the Woodside School site, and for the erection of a new building containing two or three classrooms.

Edgar Norris, Woodside school trustee, declared today that the district planned to go ahead with the building program as soon as possible. Norris estimated that it would take approximately 60 days before the bonds could be sold.

Building Permits Drop in County

Last year's home and business construction record in San Mateo County will not be matched this year, at least as far as early figures indicate.

County Bldg. Insp. A. W. Russell reported today that during the first two months of this year the value of building dropped about a half million dollars behind the same period a year ago.

Up to the end of February, the total value of construction in the unincorporated areas was $3,142,585. A year ago at the same time it was $3,650,804.

The greatest difference shown was in the value of construction for which permits were issued in February. Last year it was $2,067,744, compared to this year's $1,538,455.

Last month Russell's office issued permits for 151 residences, totaling $1,306,650; for 16 home alterations, value $38,287; a total of 35 non-residential structures, $144,900; and 17 alterations for non-residential buildings, $48,618.

News of Commuters

Caboose still on vacation. Oh me, thought maybe I might be able to catch up on my sleep.

Last Thursday night Bert Morgan had the misfortune of having the house committee call on him for a special meeting. Little did he know that every other committeeman and his children would take advantage of his place for a meeting the same night. Even Elmer Ross and his underpass committee came out of hiding and divulged the fact they had met in secret session and would announce their findings at an early date.

Chmn. Duke Martin told of securing the cafeteria at Sequoia High School on Wednesday night, Mar. 31, for the annual Fathers, Sons and Daughters dinner. Plenty of good food and lots of entertainment has been promised for that event. Good news for mothers. Maybe they can have a night off.

Jim Smith and his committee, composed of Fred Hengehold, Harry Hibbard, Ed Horgan, John Kennedy, Vince Malone, Walter Stevenson, Larry Olness, Stan Perkins, Mel Potter, Harold Donnelly, Ed De Bow, Bill Silverthorn and Paul Allen, got off to a good start Sunday when they jumped the gun a day ahead of the start of the annual Red Cross drive.

The boys met at Mel Potter's house just after dawn and after a good pep talk by Jim, started ringing door bells in the carriage district. One of my scouts reports that the response was very good, which is real good news. Mel also supplied the medicine for dog bites after the boys had finished their hard day's work.

The dinner given by Cub Pack 16 for Cubs and Dads at St. Peter's Church last Tuesday day night had an attendance in excess of 80 dads and sons. Scouters attending included Chester Armstrong, vice president, San Mateo County Council; Will Rogers, cub commissioner; Walter Schugert, neighborhood commissioner; Bert Morgan, Cub Pack 16; Floyd Hagen, Scoutmaster, Troop 160, and Cubmaster Vernon Ballard. Ralph Case, principal of McKinley School, furnished a motion picture projector which enabled Sidney Alexander to show pictures.

Don't forget that Mar. 4 is the deadline to register to vote in the coming election for city officials.

Sure tough these mornings to get a pinochle game on the 7:43. Either not enough players or else nobody has a deck of cards. Usually have to kibitz the bridge game with a foursome made up of Walter Hardin, Ted Cole and Jack Robb of this fair city and Frank Ford of San Carlos.

The new meeting place for Scout Troop 160 at the Lincoln School is a honey. Some Wednesday night drop in and see the place for yourselves.

Warning to Clarence Brizee: Tomorrow night, the regular monthly meeting of the directors will be held at your house at 852 Madison St. Better have plenty of "Kist" on hand. I wonder how many more committees will show up.

San Carlos Man Hurt in Accident

Cedric C. Ellis, 33, Terminal Way, San Carlos, was treated at Community Hospital early Sunday morning for facial injuries sustained when the car he was driving crashed into two parked cars.

Officers said that Ellis, a lumber company superintendent, was driving west on Edgehill Rd. when his car crashed into the rear of a parked car belonging to James W. Kelly, 219 Sycamore St., San Carlos. The force of the impact pushed Kelly's car into a second parked car belonging to Melvin Johnson, 2026 Mezes St., Belmont, a San Carlos realtor.

All three cars had to be towed away from the scene of the accident, police said, adding that they were attempting to get more information on how the accident occurred.

Study Group Holds Mental Hygiene Forum

"If we have caused you to think about this problem of mental hygiene, our presence here has been worthwhile," concluded Robert Hardgrove last night following the panel discussion meeting on mental hygiene sponsored jointly by the Parent-Teacher Assn. units of Redwood City.

Mr. Hardgrove, president of the mental hygiene society, had as its members Dr. Logan Gray, San Mateo physician; Dr. Helen Burke, psychologist from the office of the county superintendent of schools; Dr. Lorenz Gerlach, psychiatrist; Mrs. Richard Dawson, author of children's books, and Irving Newman, administrative assistant to the county probation officer.

The panel listed "love and hunger" as essential human needs. "The fulfillment of these needs depends upon the relationship between parent and child," members said. "When the child is starved for affection he is ill, even as the dog left alone, refuses to eat."

The audience was told that the mother is the key figure in every family and she sets the mental pace of the group.

It was stressed that adults' need for love and affection is in proportion to their unfulfilled love as children.

In response to a question from the floor it was stated that there will be a statement of policy concerning the Child Guidance Clinic released next week.

It was said that "there is such a great need for a clinic that it will be necessary to make some selectivity in the cases it will be able to handle." The only rule so far is that the children be under 14 years of age to be eligible.

Last night's meeting was the final one in a series of study group meetings sponsored by the local PTAs.

The effects of climate, soil and other local conditions are so important in tobacco growing that each important tobacco growing district is known for its own type and grade of tobacco.

4 File in Belmont, Six in San Carlos

Although 26 sets of papers are in circulation in Belmont, only four persons have filed to run for city council with the deadline ending at noon tomorrow, according to City Clerk Catherine Heartsner.

Besides the four persons to file for one of the five council vacancies, two persons, Mayor Harry T. Walden, incumbent, and Milo J. North, Belmont business man, have announced that they would be candidates.
